venue

organizer

The Timiryazev Center exhibition complex was created on the basis of the Timiryazev Academy and allows for organizing business events at a high technological and organizational level.

The exhibition complex has a total area of 40,000 m<sup>2</sup>, including 18,000 m<sup>2</sup> of exhibition space and halls of various configurations, including a high-tech conference hall with a capacity of 450 people.

The Integration project has been held by the Expo Fusion exhibition company since 2011, bringing together manufacturers and distributors of specialized products with rehabilitation specialists, retailers and users, and also serving as a platform for the exchange of experience and knowledge for a number of social-oriented institutions, educational and rehabilitation centers, equipment manufacturers and service providers, government agencies at the federal, city and municipal levels. Over the years, the exhibition has been forming and strengthening the communication and business platform, helping to create and develop an inclusive environment in the fields of education, healthcare, leisure and sports.

- competitions and demo-sessions
- contests and demo shows

## Forum of rehabilitation technologies

- reports of associations and societies
- specialized discussions
- new products & technologies presentations

## Territory of inclusion

- expert lectures on barrier-free environment
- meetings with museums and universities
- presentations of social-oriented startups

The rehabilitation industry is experiencing a new birth in Russia: development of technologies, investment in new projects, increased attention to the Russian market from partners in Central and Southeast Asia, China and Turkiye. An important meeting point for all actors in this movement will be the Integration platform and the specialized Forum of rehabilitation technologies.

- ✓ Manufacturers of technical means and technologies for rehabilitation
- ✓ Manufacturers of prosthetic and orthopedic equipment
- ✓ Personal mobility equipment manufacturers

- ✓ Projects of accessible social, transport and engineering infrastructure
- ✓ Rehabilitation centers and institutions for people with disabilities
- ✓ Specialized associations, public organizations

The Integration exhibition in addition to specialized equipment and rehabilitation technologies – allows both specialists and users to become familiar with a whole range of related services and solutions aimed at building and developing a barrier-free environment. The exhibition presents:

- ✓ **Manufacturers and suppliers of goods and services**
- ✓ **Educational institutions and projects**
- ✓ **Job and career adaptation platforms**
- ✓ **Developers of innovative projects**

**Experts in the field of  
medicine and rehabilitation**
